Webinar on Site Safety Gathering

Enhancing Site Safety by Behavioural Change

Date: 10 May 2021 (Mon)
Time: 4:00pm – 6:00pm
Language: English

About this event:

Unsafe behaviours are considered as one of the contributing factors in industrial accidents. Workers' unsafe behaviours will expose them to hazards if they are not motivated to follow safe work procedures.

In this webinar, the speakers will explore the followings:

- Is a zero-harm mission the answer?
- Fixing the worker or fixing the system – is punishment the right answer?
- Work as imagined and work as done – understanding worker motivation
- Leading indicators – what works best?
- Observations and behavioural safety
- Verrico / Valentine's Hillary Step theory
- ABC analysis
- Swiss Cheese theory
- Workforce engagement – effectively understanding things that make work difficult
- Accident Investigation – going from 'Why' to 'How'

Terms and Conditions

1)The Webinar will be conducted in English. 2)It is suggested that participation in Webinar counts for 2 CPD hours. 3)Confirmation email will be sent to successful registrations on or before 7th May 2021. 4)The organiser reserves the rights to make any changes without prior notice.

First come, first served!
